JIAXING FULUO MEDICAL SUPPLIES CO.,LTD

COMPANY PROFILE

More than 20 years of experience has given the company a unique position in adhesive components of medical device manufacturer markets

TECHNOLOGY IS THE SPEAR, QUALITY IS THE SHIELD

- Adhesive Materials specially designed for medical applications, ensuring optimal adhesion under all atmospheric conditions.
- Adhesives suitable for converting
- Contract manufacturing and customized solutions
- A comprehensive system widely used in allergy testing devices, valued for its low irritation properties
- A quality system committed to biocompatibility and non-irritating products
- Organized manufacturing processes with full traceability and identification systems, including CE marking registration within our quality procedures
- Efficient manufacturing and logistics systems that guarantee deliveries to any location worldwide
- Adhesives certified in accordance with ISO 13485 standards

MAKE EVERY ADHESION WORTHY OF TRUST

We reject flashy marketing concepts and fueled by customer needs. The manufacturing expertise and experience of FULUO means we're uniquely suited to help our customers build better solutions at scale. We can offer robust quality controls and reliable supply to help grow your platform.

Precision-Engineered Adhesives Solution for Converting

Customized adhesives solution for various medical devices

One-stop for all your material and conversion needs: carriers, adhesives, release liners, and professional slitting

01 Medical Device Components

We supply a variety of medical tapes and films—such as double-sided tape, single-sided tape, foam tape, non-woven tape, and hydrophilic film—suitable for wound care, skin fixation, device connection, bundling, and other medical applications.

02 Traditional Sports & Medical Tapes Jumbo Roll

We offer a wide range of jumbo rolls for sports and medical tapes, including kinesiology tape, fix tape, non-woven tape, PE tape, and paper tape—available in various colors and customizable options.

03 Personal Consumer Goods Market

We provide innovative adhesive solutions for personal consumer products, including smart wearables, bandages, double-eyelid stickers, anti-friction heel tape, fashion tape, double-sided wig tape, hidden body and garment tape, nail art stickers, and makeup accessories.

04 Biomedical and Electrode Components

Medical double-sided tape, foam tape, and non-woven tape offer distinct advantages in the production of biomedical devices, including ECG electrodes, where secure adhesion and skin compatibility are essential.

05 Surgical Instrument Components

Our medical-grade adhesive products, including double-sided tape, single-sided tape, and transfer films, are widely used in surgical drapes, hole towels, surgical gowns, catheters, and other disposable instruments. They provide reliable bonding to surgical sites or between medical devices.

Product Selection Guide

MODEL	ADHESIVE TYPE	CARRIER	APPLICATION	粘性	FEATURES	CUSTOMIZATION
126F	Acrylic	IXPE FOAM	ECG Electrodes	Aggressive	High Strength	Slitting;Color;Thickness;Strength
106F	Acrylic	IXPE FOAM	ECG Electrodes	Standard	Low Allergenicity	Slitting;Color;Thickness;Strength
036F	Acrylic	IXPE FOAM(Low Density)	ECG Electrodes	Aggressive	Soft	Slitting;Color;Thickness;Strength
036N	Acrylic	Spunlace Nonwoven Fabric	ECG Electrodes	Aggressive	Soft,Breathable	Slitting;Color
035P	Acrylic	Paper Cloth	ECG Electrodes	Standard	Soft,Breathable	Slitting;Color
045H	Hot Melt	Spunbund Nonwoven Fabric + Pearl Film	TENS Electrodes	Standard	Good Processability	Slitting;Color
102U	Acrylic	PU+PE	IV Dressings	Standard	Waterproof,Good Processability	Slitting;Printing
103N	Acrylic	Spunlace Nonwoven Fabric	Nonwoven Wound Dressings	Standard	Soft,Breathable,Good Processability	Slitting;Printing
202U	Acrylic	PU+PE	Transparent Wound Dressings	Standard	Waterproof,Good Processability	Printing
036T	Acrylic	Synthetic Cloth	Plaster,Bandage	Aggressive	Soft,Elastic	Slitting;Printing
034E	Acrylic	PE	Plaster,Bandage	Standard	Waterproof	Slitting;Printing
033P	Acrylic	Paper Cloth	Paper Medical Tape	Standard	Soft,Breathable,Easy to tear	Good Processability
033E	Acrylic	PE	PE Medical Tape	Standard	Soft,Breathable,Easy to tear	Good Processability
035S	Acrylic	Silk Fabric	Silk Medical Tape	Standard	Soft,Easy to tear	Good Processability
203N	Acrylic	Spunlace Nonwoven Fabric	Fix Roll,Nonwoven Tape	Standard	Soft,Breathable	Slitting,Releasing line
418W	Hot Melt	Cotton	Sports Tape	Aggressive	Breathable, High Strength, Easy to tear	Color,Punching
126K	Acrylic	Cotton+Spandex/Synthetic+Spandex	Kinesiology Tape for Sports	Aggressive	Oil-Resistant and Sweat-Resistant	"S" Wave,Color,Printing
065K	Acrylic	Cotton+Spandex/Synthetic+Spandex	Kinesiology Tape for Therapy,Mouth Tape, Wearable Device Patch	Standard	Continuously Gentle Adhesion	"S" Wave,Color,Printing
536N	Acrylic	Spunlace Nonwoven Fabric	Nasal Strip	Aggressive	Continuously Adhesion, Oil-Resistant and Sweat-Resistant	Slitting,Color
536E	Acrylic	PE	Nasal Strip	Aggressive	Continuously Adhesion, Oil-Resistant and Sweat-Resistant	Slitting
